Orube comes from **Basiliade,** a world where the children are seperated from their parents at an early age. During the so-called **"ceremony of great light"**, the children are moving into **"the garden of two suns"**. There, they live the rest of their lives training in martial arts. Orube becomes the best warrior, mainly thanks to **Luba,** who taught her to master her fury.

From **Basiliade,** Orube moved to **Kandrakar.** There she got familiar with the W.I.T.C.H. girls, when she, on demand from the **oracle,** was replacing **Taranee.** At first, there were some conflicts between Orube and the other girls. The oracle therefore decided that Orube would move in to **Miss Rudolph's** house in **Heatherfield,** to get to know the guardians and their world better. Orube took the name **Rebecca Rudolph** and impersonated Miss Rudolph's niece.

Orube was subjected to some unexpected challenges as an earthling. Cooking, TV, money and traffic were new, incomprehensible things to her. Even friendship and kindness were things she had to learn. She became friends with the guardians and got her self a job as a journalist for a newspaper in **Heatherfield.**

all the signs pointed to Orube's happyness in Heatherfield, but then she fell in love with **Cedric.** And when he disappeared into ink in **Ludmoore's book,** so did the happiness from Orube's life. Now she's returned to **Kandrakar** to think things through and to figure out what she wants to do from now on.

Use an ink pen to draw a clean version of the figure. Add the last details like the long band around her waist and the patterns on her clothes. Use a soft rubber to erase the pencil strokes.

Color the drawing. Think about where the light comes from and what shadows it brings. Here are some color instructions. The colors on the right are the shadow versions of the colors on the left.

Skuggor / Detaljer	Hår
Runt ögonen / Hårband	Ögon
Ansikte	Krage

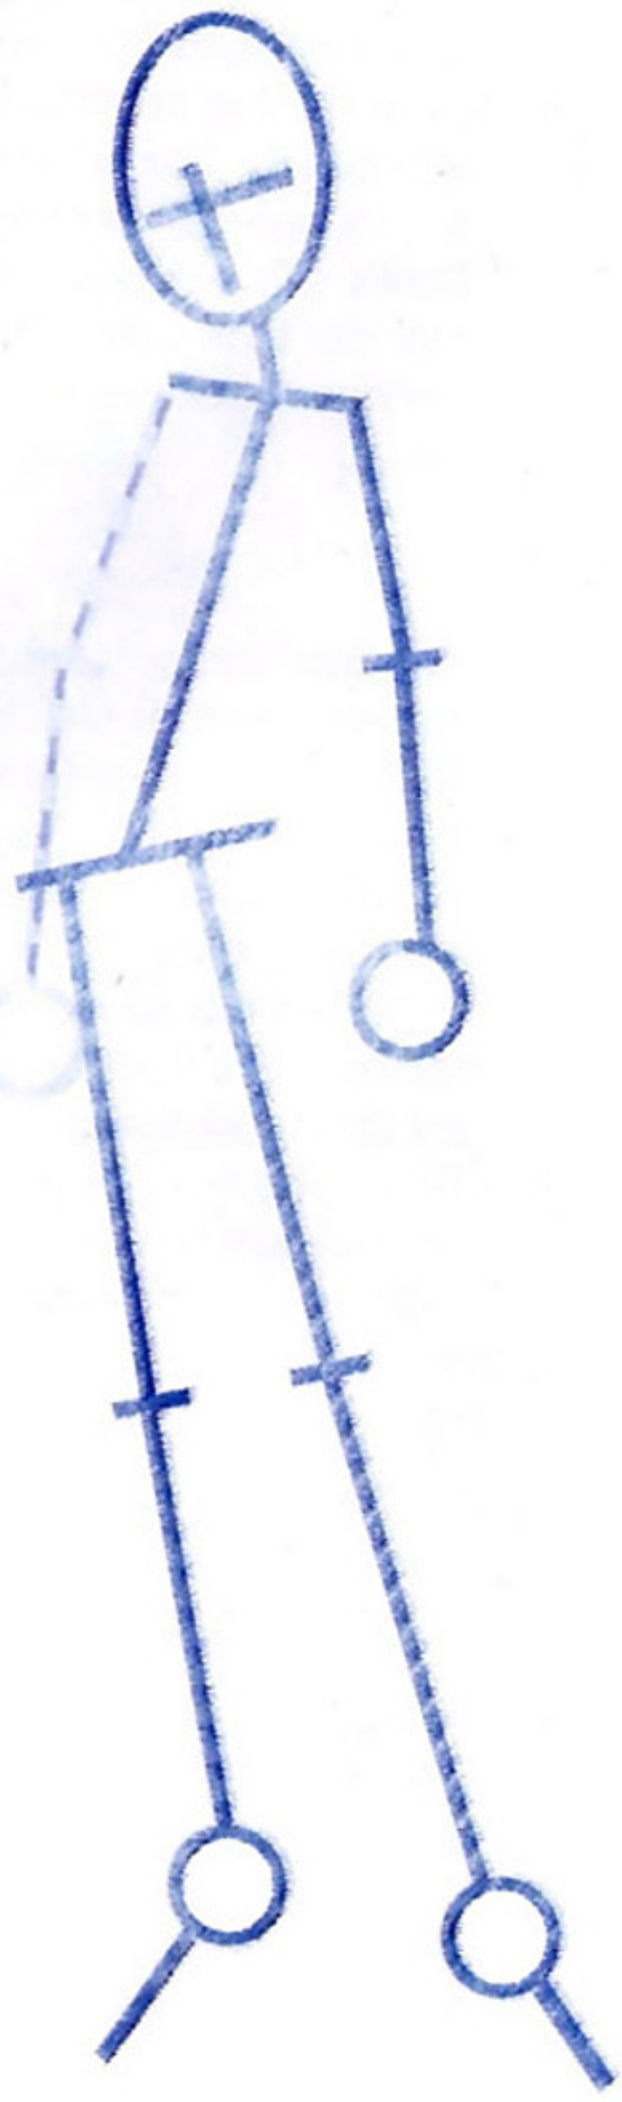
1



Start off with a simple stick figure. Orube has very long arms and legs, so you need to draw them extra long for her. Place the mark, which indicates the positions of the eyes and the nose, a little bit to the bottom left of the face.

2

Draw a broad contour around the stick figure, featuring details like the headband, the shirt and the pants. Add eyes, a nose and the mouth according to the mark.

NOTE: Orube is older than the other girls and therefore, she's got a more female body shape.

Clothing

The white dress with the pink bands is Orube's warriour suit.

Miss Rudolph, or Galgheita, handed her house over to the guardians when she left for Meridian. Then it became Orube's home for a while.

Home

The little WE was Orube's pet hooligan. He comes from Basiliade and can become invisible. Orube got him from the oracle.

WE

Olsen's

At Mr. Olsen's petstore, Orube got her very first job in Heatherfield.

Cedric was Orube's first, and maybe last love.
